

MaRS Collaboration Centre

Auditorium

Auditorium

Located on the lower concourse, the auditorium is a single-level, multi-purpose room with approximately 4,600 square feet of usable space and a maximum seating capacity of 380 people.

Partitions allow the room to be divided into three (designated as Auditoriums A, B and C) for increased flexibility. With portable risers that can be used as a stage or presentation platform, the Auditorium can be configured for theatre-style seating and for a variety of events such as dining, training and trade shows. It also has multiple ceiling rigging points for easy mounting of stage lights and additional equipment.

Built-in technology:
